# Mediation Services for Anoka County

*Creating Peaceful Solutions*

August 9, 2010

Dear Friends,

Mediation Services for Anoka County, founded in 1987, has served thousands of neighbors, renters, residents, landlords, parents and victims of crime. Its community mediations, shared parenting and restorative justice programs have provided peaceful settlements in communities throughout Anoka County.

A new program beginning in September 2010 will support the Anoka County Court system and offer better outcomes for people in conciliation court. Also, a new focus on mediations for seniors and their families will be added this fall.

Please join us and support the programs of Mediation Services as you vie for valuable prizes. Try your luck and skill at a variety of games, including bingo, and explore your future with a real live fortune teller!
